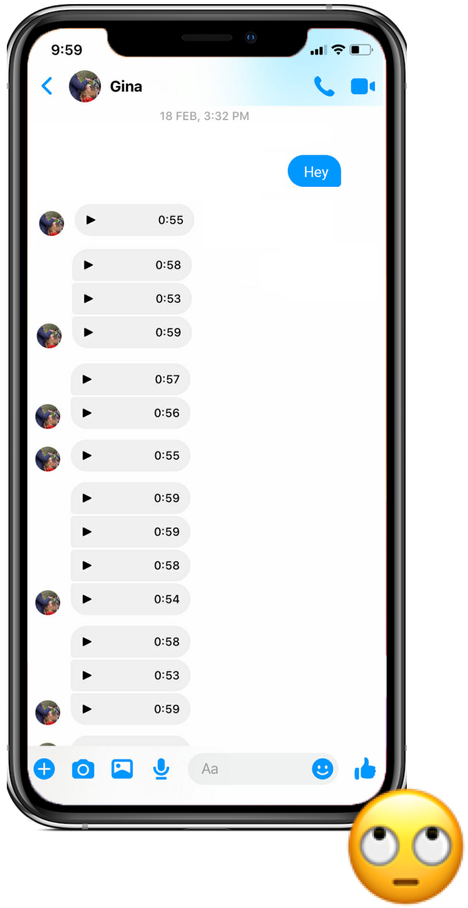
  Acquired by WOMBO.ai

Market research



Voice memos

- extremely popular among young people
- easy to send, based on spontaneity
- convey emotions & feelings
- a hassle to listen to

Vision

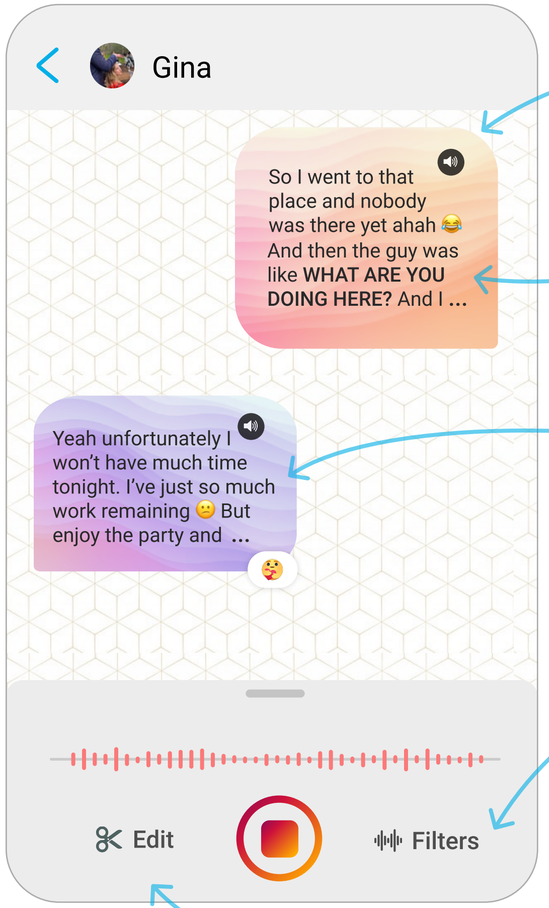
Voice is great at sending
Text is great at receiving

Voice sucks at receiving
Text sucks at sending

TalkieWalkie is great all the way

It’s transformational

Product



Animated transcripts

On-device ML sound analysis

- laughter detection 😂
- SHOUTING DETECTION

NLP emotion analysis

ML audio filters to drive virality

Simple audio editor

TalkieWalkie

- Ship state-of-the-art ML to a consumer app
- Messaging app to maximize retention
